Population: 81,464 • **Number of Households:** 34,635

Median Household Income: \$41,393 (state: \$58,229)

Labor Force Participation Rate: 50.3% (state: 59.2%)

ALICE Households: 28% (state: 30%) • **Households in Poverty:** 26% (state: 19%)

Trends in Financial Hardship

ALICE is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mployed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

Households move below or above the ALICE Threshold as economic factors and circumstances change. The line graph to the right shows the number of ALICE and poverty-level households (solid blue lines), as well as the trend over time (dotted gray lines). **By 2023, 18,989 households (55%) were below the ALICE Threshold in St. Landry Parish.**

The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the current economy and includes housing, child care, food, transportation, health care, technology, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and by household composition, as costs can vary greatly depending on location and household needs.

In 2023, household costs in St. Landry Parish were well above the Federal Poverty Level of \$14,580 for a single adult and \$30,000 for a family of four.

Financial Hardship is Not Evenly Distributed

The largest demographic groups in the county also tend to have the largest number of households below the ALICE Threshold. However, when looking at the percentage of each group that is below the Threshold, some groups face higher rates of hardship.

Note: Municipal-level data on this page is 1- or 5-year averages for U.S. Census Bureau Places, which include Incorporated Places and Census Designated Places (CDPs). Counties and Places with populations over 65,000 are 1-year averages; otherwise, they are 5-year averages. Geographies with fewer than 100 households are not included. Therefore, totals will not match the county-level numbers.
